

CHEROKEE STRIPPERS

Linda Morris

Our last newsletter to everyone started off great! Listen...what do you hear? Yep, that is what I thought I heard. You do not need therapy. You just need to go CAMPING! As we all know Covid became a word that we will never forget.

The last of our camping months ended up with just a few rigs with a few members driving over for Saturday night dinner. Some of the favorite places August to October were Anthony Lake, Kaw Lake, and Oxford.

Anthony fun was had by all who attended; visiting, playing games and of course keeping our distance from one another. September took several rigs to Kaw Lake where everyone was treated to a special meal, Gary Crabtree smoked ribs and chicken (what a great meal). We ended the year up at Oxford which is always a favorite of our club where it was nice to see everyone. We enjoyed a delicious soup and chili potluck dinner and visited by the open fire in the fireplace.

At

Camping season was over for taking our rigs! November we held our meeting ay Luigi's Italian restaurant in Winfield, KS. Talk about good food (but I will still rate our rv members at the top of the list. The December meeting was very special. Cathy and Ricky Beverage opened their home for our annual Christmas get together. The cooks out did themselves with smoked ham and all the trimmings.

With not camping much this year our club officers and wagon master said they would serve another year. We are thankful for those members who stepped up for another year! We have a couple of snowbirds this year, the Ortons and the Beverages.

As celebrate the New Year let us all appreciate friends and family wishing the best for 2021! Happy New Year and stay safe.
