

## KANSAS GOOD SAM'S NEWSLETTER FEBRUARY 2018

February, the month that brings out the Ground Hog, so he can look for a shadow and the month that brings out the flowers and candy for our Valentines. We can look for love this month, and hope for a shorter winter, so we can get up and go or it may be a longer winter, more time to snuggle with our valentine. Also, this month we have Presidents Day. This month seems to be one for many types of opportunities to eat at many soup suppers, pancake feeds, ground hog feeds, and other fund raisers.

Not much has happened this last month. Our State Good Sams did provide a service for the Greater Kansas RV Show in Wichita last weekend, Jan 25-28. I felt that it was well attended and the weather cooperated. I would like to THANK all those who helped take tickets and man the booth to answer any questions. I am still amazed at the number of folks who do not know about our Good Sam organization and what we strive to accomplish. Those who helped were Woody and Donna Bird, Phillip and Carolyn Osborne, Harold and Susan Grimes, Gary and Sharon Johnson, Jackie Ward, Ward and Pat Nippert, Dean and Judy Andreason, Ricky Beverage, Sonny and Nancy Crook, Jeff Guernsey, Mike Evans, Annette Russett, Larry Cody, Larry Bond and Dean and Karen Stewart. I do appreciate these members who traveled to Wichita and volunteered their time to help. Most of the RV vendors who participate in this show support our Rally with donations and door prizes. I also will be sending them a thank you for letting us be involved with their show. This year there were five RV dealers represented, so there was a great selection of RV's.

Before you know it March will be here. Have you made your list of what you want to do this summer? Start planning, camping season will be here very soon. Check you calendars for Chapter Campouts, District Rally's, the State RV Rally, and maybe you could attend some of the other South Region Rally's. All these activities are available to attend. You may need to plan ahead as reservations may be needed.
